

Information on data treatment	
<u>Legal figures related to data handling</u>	
<p>Data management controller: Centre for Economic and Regional Studies, Tóth Kálmán str. 4, 1097 Budapest.</p> <p>Responsible for data management: Dr. Hardi Tamás, senior research fellow at the Institute for Regional Studies, hardit@rkk.hu</p> <p>Responsible for the data protection: Dombi Péter, IT expert, dombi.peter@krtk.mta.hu</p> <p>Contact referent for information about data management and treatment within the project: Dr. Hardi Tamás is the authorized person in the framework of the Erasmus+ project “WaterSTEAM”, to manage your personal data, exclusively for the purpose of the project (production of reports and publications). His contact for related information and issues: hardit@rkk.hu</p>	
<i>Nature of the data collected and methods of treatment</i>	
<p>What kind of personal data is collected: common information (age, email, address of the school / institute)</p>	
<p>Purposes for which the data are gathered and used: The results of this study will be used for scholarly purposes only. These data will be used only by the research partners of the project WaterSTEAM. The mailing list may be kept and used in the future for further educational research purposes by the referents of the competition.</p>	
<p>What are your rights regarding the collected personal data: You have the right to access, modify, cancel, and limit the access to and transfer of your personal data, as well as the right of objection to its processing (General Data Protection Regulation No. 679/2016,) by contacting Dr. Hardi Tamás directly at hardit@rkk.hu at any time and without providing any justification. In this case, no further data concerning yourself will be collected, without prejudicing the use of already collected data, for the purposes described above or similar purposes. You have the right to appeal to the supervisory authority (Guarantor for the protection of personal data).</p>	
<p>How your data is handled: in all dissemination activities of any possible research results, the data will be used in an anonymous and aggregated form, i.e. in such a way that the data cannot in any way be linked to the identity of the persons who participated in the project.</p>	
<p>How long your data will be kept: The data will be used for IO1 Action (Report of survey of teachers, students and project stakeholders), in order to compile a National and International Report. Data will be kept until the end of the project (31st May 2022)</p>	
<p>What security measures are taken to protect your data: data will be gathered through Lime Survey, saved in a directory of Lime Survey managed by the responsible of the data management. Data will be saved also in a server at the Centre for Economic and Regional Studies. Technically, the data will be stored in a personal server managed by the responsible person.</p>	

	How your data may be further used: Data may be used in the future by the project partnership, for further research purposes (dissemination of educational projects, science education conferences and events).
	To whom can your data be transferred? Data may only be transferred to the partnership of the Erasmus+ project WaterSTEAM- Data will be shared in a Google Drive folder, only accessible to the Steering Committee of the project partnership.
	How will you know the results that have been obtained with this project: You can access the preliminary results of the project at any time. The final results will be disseminated through scientific publications or other dissemination activities, which will use exclusively data in anonymous and aggregate form, i.e. without any connection between data and personal identity.
